RE: Letter on Non-compliance – Former Clinton Engines at 605 East Maple St., Maquoketa

Dear Mr. Smith,

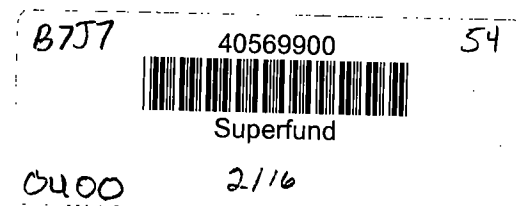

In an August 10, 2020 letter from the Iowa Department of Natural Resources – Contaminated Sites Section (Iowa DNR) you were reminded of the outstanding site requirements for the Former Clinton Engines site in Maquoketa. The outstanding assessment was required to be submitted within 90 days of receipt of the letter. The groundwater assessment has not been received and is overdue. Please refer to previous correspondence (Iowa DNR letters dated September 26, 2019, and August 10, 2020) for requirements.

Please submit the required assessment within 30 days of receipt of this letter. If you believe this letter of non-compliance has been sent in error or if you dispute any of the observations cited herein, please provide a detailed written explanation within 15 days of receipt of this letter. Additionally, if an extension is requested, the request should be in writing and should include a proposed submittal date. If you have questions or would like to discuss the project further, I can be reached by email at shelly.nellesen@dnr.iowa.gov or by phone at (515)725-8372.

Sincerely,

Shelly Nellesen
Environmental Specialist
